Minutes

23 June 1972  
COINS/257-72

MEMORANDUM FOR THE RECORD

SUBJECT: COINS Meeting

1. A meeting of COINS principals was held at NSA on Thursday, 8 June 1972. Attending were:

Project Manager  
COINS Manager  
Executive Officer  
Security Officer  
Chairman, CUSP  
Observer  
Observer  
Chairman, TAP  
COINS Manager  
Airfield Panel Rep  
COINS Manager  
Observer (AFIN)

2. [redacted] had been requested previously to reexamine COINS Operational Procedure No. 2, "New COINS Participants", and to indicate any DIA recommendations for revision. [redacted] had no changes.

3. [redacted] had been requested to determine if NPIC had a continuing need for the Teletype Model 558 printers loaned by NSA and installed for on-line monitoring of the NPIC COINS circuit. [redacted] stated that the machines were still needed particularly in view of the impending COINS TK test.

ACTION ITEM: [redacted]  
engineers to reconnect the machines. This has been done, however [redacted] is awaiting notification by NPIC that the machines are ready to be connected (i.e., in place and AC power installed).

4. The Project Manager gave a COINS memorandum to [redacted] in which CIA is authorized to allow the installed [redacted] terminal to remain connected to the communication circuit during non-duty hours and to disable the terminal by means the ON-OFF switch only. This authorization was granted with the understanding that the terminal is located in a secure SI area at all times.
